Ideation Phase
Define the Problem Statements

Date	19 September 2022
Team ID	PNT2022TMID18806
Project Name	A Novel Method for Handwritten Digit Recognition System
Maximum Marks	2 Marks

Reference: https://miro.com/templates/customer-problem-statement/

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	ML engineer	To train and test the model	different types of style of a digit can be written	each person has a unique hand writing so we have to have large dataset (mnist in this case)	frustrated
PS-2	User	to recognize exact digit	no accurate prediction	not optical character recognition	disappointment
